(v) Any added poisonous or deleterious substance, any food additive, and pesticide chemical in or on a raw agricultural commodity, or any color additive is considered unsafe for the purpose of application of this definition, unless there is in effect a federal regulation or exemption from regulation under the federal act, meat inspection act, poultry product inspection act, or other federal acts, or a rule adopted under this act limiting the quantity of the substance, and the use or intended use of the substance, and the use or intended use of the substance conforms to the terms prescribed by the rule.
